"Do you remember...when it was last September?"

Editorial

Take a moment. Sit back. Close your eyes and relax. Take a deep breath. Take another. Now think back to this time last year. What were you doing? How was your energy level? What about the season as a whole? Did your motivation or drive go up and down at all last season? What caused this? Take stock of some of the reasons why your motivation may have changed throughout the season. How did you feel? Take your time...

Its that time of year again! The exciting time of year where we put a plan in place for what we want to achieve (otherwise known as goal setting). As an exercise, why not take some time to write down your true feelings of the questions above. Then come up with a list of strategies or "motivators" to keep you and your season goals in the forefront of your mind.

Skating is <u>all about you</u>! Remember, that what we put into an activity is what we get out of it. One of the benefits of being in an individual sport like ours, is that we the skater have a lot of control over our results. Our skating in that sense is just that; <u>ours</u>. Leading up to these final results are hundreds of smaller choices that we get to make <u>all the time</u>. Stay close to what you are going to achieve every day. How you govern yourself on a daily basis; how you spend your time, motivation and focus to stay on top of what you want to achieve, sets you up for your own personal success. **It's all up to you!**

MOTIVATION and INSPIRATION for NAVIGATION,

PERSPIRATION and REALIZATION!
